

ALPHATM

AIR SUSPENSION KITS

PART OF PACBRAKE'S

AIR ARSENAL

*Applications vary

AIR SPRING KITS ARE *THE #1 SOLUTION* FOR COMMON TOW/HAUL PROBLEMS

Your truck's suspension was designed as a compromise between capacity and comfort. So when you haul heavy loads or pull a trailer, the rear springs can be pushed to the limit – resulting in excessive bounce, sagging ride height, and an overall feeling of instability.

SOLVED!

Leveled vehicles ensure proper headlight aim for safer night driving & visibility.

SOLVED!

Proper weight distribution improves steering, braking, & tire wear.

SOLVED!

Restores ride height to prevent scraping and reduce suspension wear.

NOW AVAILABLE!

BRAVO[™]

WIRELESS AIR CONTROLS

The ultimate convenience for controlling your air springs, right in the palm of your hand!

ALPHA™

AIR SUSPENSION KITS

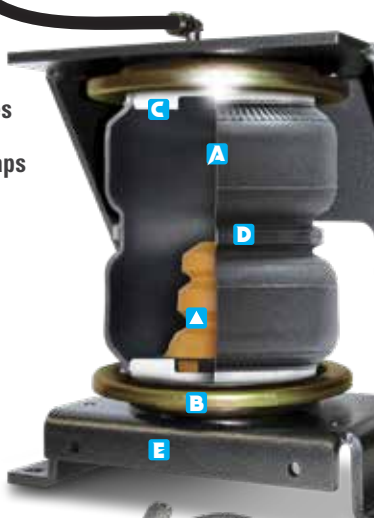

Easily adjust the air pressure to support heavy loads without straining your suspension — giving you a level stance, a smoother ride, and complete confidence behind the wheel.
